ABSTRAK

Kezia Goldy Tumiwa, Pengaruh Nilai Tukar, Fluktuasi Nilai Tukar dan Cadangan Devisa terhadap Paritas Daya Beli Rupiah Indonesia terhadap Dollar Amerika Serikat pada Tahun 2015-2019. Dibimbing oleh Christoforus A. P. Koleangan dan Apolinaris A. Montolalu.

Dalam menentukan paritas daya beli suatu negara, ada beberapa variabel yang dianggap memiliki pengaruh terhadap paritas daya beli yang diukur menggunakan perbandingan rasio inflasi antara Indonesia dan Amerika Serikat. Tujuan dari penelitian ini adalah untuk mencari tahu signifikansi pengaruh dari variabel independen yaitu nilai tukar Rupiah/Dollar, fluktuasi nilai tukar Rupiah/Dollar dan cadangan devisa terhadap variabel dependen yaitu paritas daya beli Indonesia pada periode 2015-2019.

Penelitian ini menggunakan metode penelitian kuantitatif dengan metode analisis data menggunakan regresi linier berganda. Penelitian ini menggunakan teknik pengambilan sampel saturasi dimana semua populasi digunakan menjadi sampel, yaitu data variabel independen dan variabel dependen pada periode 2015-2019.

Hasil dari penelitian ini adalah nilai tukar Rupiah/Dollar, fluktuasi nilai tukar Rupiah/Dollar dan cadangan devisa secara simultan memiliki pengaruh signifikan terhadap paritas daya beli yang diukur menggunakan perbandingan tingkat inflasi Indonesia dan Amerika Serikat sedangkan secara parsial dinyatakan bahwa nilai tukar Rupiah/Dollar memiliki pengaruh yang tidak signifikan terhadap paritas daya beli yang diukur menggunakan perbandingan tingkat inflasi Indonesia dan Amerika Serikat, dan fluktuasi nilai tukar dan cadangan devisa tidak memiliki pengaruh signifikan terhadap paritas daya beli yang diukur menggunakan perbandingan tingkat inflasi Indonesia dan Amerika Serikat.

Kata Kunci: *nilai tukar Rp/Dollar, fluktuasi nilai tukar, cadangan devisa, paritas daya beli*

ABSTRACT

Kezia Goldy Tumiwa, The Influence of Exchange Rate, Foreign Exchange Fluctuation and Foreign Exchange Reserves toward Purchasing Power Parity Indonesia Rupiah on United States of America Dollar (Period of 2015-2019). Advised by Koleangan, Ch. Adrie P.Christoforus A. P. and Montolalu, Apolinaris A.

In determining the purchasing power parity of a country, there are several variables that are considered to have an influence on purchasing power parity measured using the inflation ratio between Indonesia and the United States of America. The purpose of this study was to find out the significance of the influence of the independent variables namely the IDR/USD exchange rate, foreign exchange fluctuation and foreign exchange reserves toward the dependent variable which is the purchasing power parity of Indonesia in the period of 2015-2019.

This research uses quantitative research methods with data analysis methods of multiple linear regression. This study uses the saturated sampling technique in which all populations are used as samples, namely the data of independent variable and the dependent variable in the 2015-2019 period.

The results of this study are the exchange rate of IDR/USD, foreign exchange fluctuation and foreign exchange reserves simultaneously have a significant influence toward purchasing power parity measured using the inflation rate between Indonesia and the United States of America while separately stated that the exchange rate of IDR/USD has no significant influence to purchasing power parity measured using the inflation rate between Indonesia and the United States of America, while foreign exchange fluctuation and foreign exchange reserves do not have a significant influence toward purchasing power parity measured using the inflation rates between Indonesia and the United States of America.

Keywords: *exchange rate IDR/USD, foreign exchange fluctuation, foreign exchange reserves, purchasing power parity*
